

2021-2024 STRATEGIC PLAN

Mission & Vision

Our mission is to provide the highest quality professional nursing service, and to train and develop professional nursing assistants and healthcare personnel committed to rendering nursing care within Wake County and surrounding areas.

We aim to improve patient care by providing professionally competent nurse aides and healthcare personnel. We teach our students to always treat residents in the same manner in which they would like to be treated. We encourage individual students to create a basic response to the changing needs and conditions in healthcare and senior care. Our 2021 focus is growing into the new location and securing accreditation.

KEY OBJECTIVES

Add two new programs	Add twenty new computers to the school library within the next three years	To replace the mannequins, one per year	Resumes completed upon completion of course program for at least 80% of students to increase job placement after certification and licensure	Donate 500 lbs. of non-perishable foods to the food bank of choice per year
----------------------	--	---	--	---

INITIATIVES

- Hire a new staff member to organize accreditation data and stay up-to-date on the process. - Make sure to secure accreditation, put together new curriculums, and send it to the Board of Nursing for approval.	- Allocate money from the budget to put towards getting new computers. - Use the new computers to help allocate extra resources for the LPN/RN programs we wish to add. - After accreditation we will increase tuition fees by 10-15% to allocate funds for the computers.	- We will allocate money every year from our budget so that we can accomplish getting the new high-tech mannequin by the end of three years and other regular mannequins, one per year. - After accreditation we will increase tuition fees by 10-15% to allocate funds for the mannequins.	- We will have a staff member dedicated to holding resume info sessions and help the students formulate a resume before the end of their course. - The staff member allocated to the task will provide all resume services to current active students prior to graduation.	- In one of the NA1 modules we can add that the students can donate one can of food. We insert this into the nutrition section in the curriculum. We would be tying this to them bringing in one item for the activity and then donating said item afterward. - Talk to the students about the donation on the first day of class when Administrative staff come in to talk about other important factors of the course.
